

Flying Around the Nest

Don't miss this opportunity to refresh your skills on operating in the Caution Zone! Millions of safe operations in all types of aircraft are conducted at non-towered airports in a variety of weather conditions. The process works because pilots put safety first and use recommended procedures. Do you know what they are? At this informative briefing we will clarify departure and entry procedures along with the radio phraseology for announcing intentions. Attendees are encouraged to participate by sharing any operating concerns they wish to discuss. Click the link below and register TODAY.

Directions: Please use mapping software or GPS.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
